

# User Manual: Spa Menu Treatment Deletion

## **\*\*Introduction:\*\***

Welcome to the Spa Menu Treatment Deletion application! This user manual provides simple instructions to help you navigate and utilize the features of the application without delving into the underlying code.

## **\*\*Table of Contents:\*\***

1. Getting Started
2. Selecting a Treatment
3. Deleting a Treatment
4. Canceling Operations
5. Exiting the Application
6. Getting Help

## **\*\*Getting Started:\*\***

Upon opening the application, you'll see a user-friendly interface with a ComboBox, Delete button, Cancel button, Exit button, and Help button.

## **\*\*Selecting a Treatment:\*\***

1. Open the application.
2. Use the ComboBox to select the treatment you want to delete from the spa menu.

> Note: If no treatments are listed, contact your software developer for assistance.

3. Once a treatment is selected, the "Delete Treatment" button becomes active.

## **\*\*Deleting a Treatment:\*\***

1. Select a treatment as explained in "Selecting a Treatment."
2. Click the "Delete Treatment" button.
3. Confirm your decision in the prompt:
  - Click "Yes" to proceed with the deletion.
  - Click "No" to cancel.

> Note: Deleted treatments cannot be recovered.

4. A success or cancellation message will be displayed.

## **\*\*Canceling Operations:\*\***

- Click the "Cancel" button to clear the selected treatment and disable the "Delete Treatment" button.

## **\*\*Exiting the Application:\*\***

- Click the "Exit" button to close the application. Any unsaved changes will be lost.

## **\*\*Getting Help:\*\***

- Click the "Help" button to open the user manual in a PDF format.

Congratulations! You are now ready to efficiently manage and delete spa treatments using the Spa Menu Treatment Deletion application. If you encounter any issues or have further questions, consult this user manual or contact your software developer for support.
