

User Manual for User Registration Form

Introduction:

The User Registration Form is a straightforward application designed for managing user accounts within a system. This manual provides step-by-step instructions on using the registration form to add new users with different permission levels.

Getting Started

Launching the Application:

- Run the application executable file.
- The User Registration Form will appear on your screen.

Form Elements:

- The form consists of various input fields and buttons to facilitate user registration.

Adding a New User

Entering User Details:

- Fill in the required user information in the corresponding fields:

1. Username
2. Email Address
3. Name
4. Surname
5. Cell Number
6. Store Name
7. Password
8. Confirm Password
9. User Address

User Permission Level

Choosing User Permission:

- Select the appropriate user permission level from the dropdown menu.

Admin Verification (for Admin Users):

- If the selected permission level is 'Admin,' enter the admin username and password when prompted.

Adding the User:

- Click the "Add User" button to add the user to the system.

Validation:

- The system will display messages for successful user addition or if any fields are left blank.

Cancelling User Addition:

- Click the "Cancel" button to clear all fields and close the form.

Help Section

Accessing Help:

- Click the "Help" button to open the user manual (PDF file).
- PDF Viewer:

The PDF viewer will open with detailed instructions on using the registration form.

Additional Information

Password Confirmation:

- The "Add User" button is enabled only when the password and confirm password fields match.

Database Connection:

- The application connects to the user database upon activation. Ensure the database file is in the correct location.

Closing the Application

- Click the "Cancel" button to close the form and exit the application.

Note: For any additional assistance, please refer to the provided PDF manual or contact your system administrator.
