Spa Menu App User Guide

Welcome to the Spa Menu App!

This user guide will help you navigate through the Spa Menu App, allowing you to explore various spa treatments and get detailed information easily. Follow the steps below to make the most of your spa experience.

1. Getting Started

1.1 Opening the App

- To launch the Spa Menu App, double-click on the application icon.

1.2 Main Form Overview

The main form of the application consists of several key elements:

- **Treatment Dropdown:**
  - Use the dropdown menu to select a spa treatment from the available options.

- **Treatment Details:**
  - Once you select a treatment, detailed information, including the name, products used, and the price, will be displayed in the rich text area.

- **Help Button:**
  - Click the "Help" button for additional assistance, which opens a PDF document providing further guidance.

- **Close Button:**
  - To exit the application, click on the "Close" button.

2. Exploring Treatments

2.1 Selecting a Treatment

- Choose a spa treatment from the dropdown list. The available treatments are dynamically populated based on the database.

2.2 Treatment Information

- Upon selecting a treatment, the rich text area will be populated with detailed information about the chosen treatment. This includes the treatment name, products to be used, and the associated price.

3. Adding a New Treatment

- If you wish to add a new treatment to the spa menu, click on the "Add Treatment" button. This will open a new window allowing you to input details for a new spa treatment.

4. Help and Assistance

- For additional support and guidance, click on the "Help" button. This will open a PDF document providing further explanations and troubleshooting tips.

5. Closing the App

- To exit the Spa Menu App, click on the "Close" button.

Congratulations! You are now ready to use the Spa Menu App to explore various spa treatments and manage treatment details effortlessly. If you encounter any issues or have questions, refer to the help documentation or contact our support team.
